

A DISCOVERY PAMPHLET

ROBERT RYAN

It all started about 15 years ago, in Toronto, Canada

It is not always easy to accurately describe what something tastes or feels like - and some things in life you just have to experience yourself. The art of Popermajer is one of those things. It is fleeting, intangible, and evades description.

You should let her work connect to your feelings, not only to your brain.

The Studio Popermajer is located in Teckomatorp

Studio visits are booked through [Galleri Tapper-Popermajer](#)

Opening night

Selected exhibitions:

Metropolitan Toronto Convention - Borgeby slott - Varbergs konsthall
Helsingborg art festival - Christinehof slott - Drakabyggets konsthall - Sthlm art fair

Japanese mouse on budding flowers
